FOURTH QUARTER 2017

## In 2017 Did You Know?

A total of 313,587 people were impacted through OEC's education outreach and museum visits.

- Over 42,000 people visited the *Ocean Star* Offshore Drilling Rig Museum and Education Center which includes, Family Days, Tour Plus programs, Education Tours, Senior Tours, Scout Days, etc.
- 1,499 teachers were trained in 62 workshops conducted by OEC staff and OEC trained facilitators on the Project E<sup>3</sup>: Expanding Energy Education, Knowledge Box and Playing with Petroleum Kit potentially impacting 220,035 students this year alone. (*Impact numbers are based on number of students as reported by teachers.*)
- Earth's Energy program, co-sponsored by the Offshore Energy Center and ExxonMobil and distributed through the Houston Chronicle, was utilized by 492 educators, impacting 33,805 students in 282 schools in 49 public school districts, 13 charter schools, 2 juvenile justice centers, 16 private schools, 2 Adult Education Centers and 22 home schools.
- MOLU I visited 100 schools in Texas impacting 12,505 students.
- MOLU II visited 23 schools in Louisiana impacting 3,128 students.

## EXECUTIVE SPEAKER SERIES

Monday, January 29, 2018

11:30 A.M. – 1:00 P.M.

**Petroleum Club** - The Total Plaza - 1201 Louisiana Street, 35th floor - Houston, TX 77002

Gregory P. Leveille

### GUEST EXECUTIVE SPEAKER:

## Gregory P. Leveille

Chief Technology Officer for ConocoPhillips

**Topic: Unconventional Reservoirs –  
A Technology-Driven Revolution of Enormous Scale**

#### Sponsors to date:

For eleven years, the Offshore Energy Center has been presenting timely information from recognized leaders and top executives in the offshore industry through our Executive Speaker Series. The OEC's **2018 Executive Speaker Series Luncheons** will begin on January 29 at the Petroleum Club with guest speaker **Gregory P. Leveille**, Chief Technology Officer with ConocoPhillips.

Leveille began his career with Conoco in 1984 in Lafayette, La. and has lived and worked in New Orleans, London, Aberdeen, Houston, Anchorage, Farmington and Singapore. During the first decade of his career, Leveille held various exploration, development and operations geology assignments, working both in the United States and northwest Europe. Beginning in 1995, Leveille held leadership positions in exploration, planning and portfolio management, asset management, project management, technology, business management, operations and commercial. Leveille was president, global LNG and Asia-Pacific commercial before moving to the technology organization in May 2011. Leveille is a member of the Executive Committee of the Unconventional Resources Technology Conference (URTeC) and has held leadership roles in several United Way fundraising campaigns. Leveille was born in Pennsylvania in 1959. He earned a Bachelor degree and Master of Science degree in geology from San Diego State University.

Registration is \$50 per person or a table of 10 for \$500. Registration and general reception will begin at 11:30 a.m. Lunch service begins at 12 noon. Make your plans now to attend. If you have any questions, or need more information, please call the OEC office at 713-840-1753. We are grateful to our 2018 Executive Speaker Series (ESS) sponsors to date and they are: **Noble Energy, Schlumberger, Shell and Transocean.**

Sponsorships are still available for 2018 and are \$3750 for 3 ESS luncheons held January 29, April 23 and July 30. As an Executive Speakers Series sponsor, you and your company will receive:

- Premium table for 10 at each luncheon (*January 29, April 23 and July 30*)
- Admittance for two to the VIP reception with the speaker before lunch
- Recognition on event signage and registration flyers
- Recognition on the OEC website and in the OEC's newsletter, *The Star*

## OEC's 2017 Fishing Invitational Tournament cancelled due to weather

This year's Invitational Fishing Tournament that was scheduled for Oct. 19-20 was well underway with a fantastic Thursday night of networking, dinner and a live auction. Unfortunately, the fishing tournament had to be cancelled Friday morning due to heavy rain, thunder and lightning just as the anglers were preparing to leave for the fishing boats. OEC thanks this year's tournament sponsors, anglers and hosts for their support of the tournament and of OEC's programs.

We look forward to having a 2018 tournament that hopefully will be unaffected by weather. Please save Thursday and Friday, October 11 and 12 for our 2018 Fishing Invitational to be held in Galveston!

Volunteer Auctioneer Randy Connor hooked the anglers for our annual Live Auction to raise money for the Ocean Star.

## We wish to thank our 2017 Tournament Hosts:

<b>David Chenier</b>	<i>Chief Procurement Officer</i>	ConocoPhillips
<b>Joe Gregory</b>	<i>President</i>	Chevron Project Resources Company
<b>Alex Guiscardo</b>	<i>Upstream Operations Manager</i>	ExxonMobil Production Company
<b>Ron Jordan</b>	<i>VP Global Drilling &amp; Completions</i>	Noble Energy Incorporated
<b>John Doughtie</b>	<i>VP Exploration</i>	LLOG Exploration
<b>T.M. "Mitch" Little</b>	<i>Executive VP Operations</i>	Marathon Oil Corporation
<b>Harry Newman</b>	<i>VP Drilling</i>	ExxonMobil Development Company
<b>James J. Parr</b>	<i>VP International New Ventures GoM</i>	Apache Corporation
<b>Allen Sanders</b>	<i>VP Deepwater Americas Operations</i>	Anadarko Petroleum Corporation
<b>Jeff Wahleithner</b>	<i>VP Deepwater Operations</i>	Shell

## A huge thank you to our Tournament Sponsors:

**Chevron** – Corporate Donation

**ExxonMobil** – Trophies

**Ryan Enterprises**

*Continental Breakfast*

**Shell** – Door Prizes

**TechnipFMC**

*Thursday's Cook Team*

**Transocean**

*Friday's Cook Team*

**Wartsila** – Security

**Weatherford**

*Photography & Weigh team*

## A special thank you to those who donated items for the Live Auction:

**Black Hawk Country Club, Captain Cliff Baxter, Captain Steve Hoyland, Dub & Rhonda Shook, Rik Miller, Schlumberger, Transocean, Williams Party Boat Charters of Galveston, and the Westin Galleria.**

## Thank you to our Fishing Committee:

**Chairman Ted Ryan** – Sembmarine SSP Inc., **Tom Ayers** – SBM Offshore, **George Hanst, Jan Erik Johansson** – Tata Consulting, **Shelli Larson** – SBM Offshore, **Rik Miller, Charlie Oldenburg** – TechnipFMC, **Joe Rozier** – GPM Historic Properties, **Dub & Rhonda Shook** – A.O.E. Operations, **Cindy Taff** – Shell, **Dana Weber** – R&D Technical Inc. and **Bill Yost** – Baker Hughes, a GE company.

# Ocean Star News

## Scout Badge Program gets a reboot

As STEM education continues to drive the models for developing minds, Boy Scouts of America have recently revised and updated various merit badge requirements. *Ocean Star* Operations Manager, Monica Crossno, has overhauled the *Ocean Star* Scout Badge Program to match the new content. A mixed group of scouts from the DFW area completed the “Geology Badge” and Troop 772 from the Woodlands tackled the “Energy Badge” at the *Ocean Star*. While Girl Scouts do not currently have these equivalent topics as badge opportunities, that doesn’t mean that they aren’t interested! Girl Scout dad Chris McGehee with Noble Drilling brought Troop 127019 to the November Family Day for a tour of the rig and a lesson in “Plate Tectonics”. Full STEM ahead!

Boy scouts enjoying the “uniforms” of those who work offshore and possibly considering a future in energy.

## A Thanksgiving Donation

The **Energy Polymer Group**, a long standing friend and supporter of the *Ocean Star*, recently donated \$5,000 to the museum. Not the first time the *Ocean Star* has been the grateful recipient of their funding, the group is memorable as the first guests to visit the museum after Hurricane Ike closed the facility for months in 2008. With regular annual meetings in Galveston, they love hosting an evening event at the *Ocean Star*, and we love that we are able to accommodate them! Founded in 1980 as the Energy Rubber Group in Houston, Texas, the Energy Polymer Group is a unique blend of polymer professionals, all dedicated to the advancement of polymer technology and education in the energy sector.

Mr. Eric Crawford, Vice Chair of the Energy Polymer Group, presents a check to Lisa Lisinicchia, Museum Director at the *Ocean Star*.

## An interesting tour

**Joan Henington** from Alief ISD attended one of the OEC’s educator workshops and uses our education materials in her classroom every day. Joan recently booked a multiday field trip and brought hundreds of students to tour the *Ocean Star*. Joan personally arranged for 304 middle school students from two different campuses to visit the *Ocean Star* over three days in October. The *Ocean Star* staff worked with Joan to create a fun and educational scavenger hunt as part of their visit.

Alief ISD students touring the *Ocean Star*.

Teacher Joan Henington and some of her students.

Students finding answers to their homework questions.

## 2018 FAMILY DAYS

On the second Saturday of every month from 10:00 AM to 3:00 PM, the *Ocean Star* celebrates “Family Day”. Each “Family Day” focuses on a different theme that relates to the offshore industry. The information is presented at a student’s level using activities or experiments. We encourage parents to bring their children aboard and experience family-learning and quality time at a reduced cost. Children 18 years of age and younger are admitted free with a paying chaperone. **Please note:** This special discount is designed for individual ticket sales and not meant to be combined with guided group tours or other museum programs.

- January 13 **Islands of Life:** Learn how platforms in the Gulf of Mexico provide habitats and protection for many different types of marine animals. Come try your luck at “fishing” around our mock platform for facts about these artificial habitats.
- February 10 **Shaving Cream Creations:** Use a common petroleum product (shaving cream?!), food coloring, a toothpick, and cardstock to create your own marbled art creation. Explore your creative side and make a unique one-of-a-kind valentine card for your loved one.
- March 10 **Derrick of Distinction:** “Oil Rigs” can be compared to vehicles: they come in lots of shapes and sizes! Using unconventional materials (spaghetti, linguine, and marshmallows), compete with other visitors to design, build, and test your very own model of a derrick. How tall can your distinctive derrick stand, and how much weight can it support?
- April 14 **Maskology:** Did you know that the use of masks varies from culture to culture? Some masks are used to disguise, while other masks are used to reveal something about the people wearing them. Did you also know that a career in science is not just a person in a lab coat mixing chemicals? The suffix ‘-ology’ means the study of a science in a particular field, and the combined efforts of several different ‘-ologies’ are necessary to successfully provide the world with the vast benefits of hydrocarbons. Create a revealing mask to represent your chosen ‘-ology’ from the oil and gas industry.
- May 12 **This Cycle Rocks!:** Discover how hydrocarbons are formed from the various processes within every layer of the Earth, and how certain rocks tell geologists where to look for oil and natural gas. Moving through areas like the soil, volcanoes, and bodies of water, pretend you are a rock on your own special journey through the rock cycle. Create a comic strip of your rocky story, or learn about the ABCs of rocks and fossils.
- June 9 **Insulators and Conductors:** Discover what it means to have an open and closed circuit. Find out what materials are insulators (do not transfer energy) and which ones are conductors (allow transfer of energy). Make your predictions, test your theory, and see if you’re right!
- July 14 **Rigs to Reefs:** Learn what happens to platforms when they are no longer used to produce offshore oil and gas. In some cases, they apply for and are accepted into the “Rigs to Reef” program, where they are converted into artificial reef habitats. What types of sea creatures call these structures home? Create a “Deep Sea” porthole—a unique view of an amazing underwater habitat.
- August 11 **Needle Through a Balloon:** Learn an amazing trick—almost like magic! A bamboo skewer coated with petroleum jelly demonstrates the elasticity of polymers when pushed through a balloon. Locate the areas on the balloon that can be stretched, allowing the skewer to penetrate through the balloon without it popping.
- September 8 **Life on a Rig:** Step aboard the *Ocean Star* and learn about the different kinds of offshore structures, what they do, and who works on them. Come search the museum to discover more about these vehicles at sea—see what you would look like as an offshore oil worker, try on safety gear, explore the old control room and participate in a scavenger hunt during your visit.
- October 13 **Sources of Energy:** In addition to petroleum, learn about nine other energy sources and how each one is important to you at any moment of every day. See if you can put together our energy puzzle, and discover how renewable and non-renewable energy affects your life.
- November 10 **What’s on your Plate?** The continents of today once formed a large land mass known as Pangaea. Over time, the spreading of the sea floor and plate tectonics separated the supercontinent and created geologic formations. Using modeling clay and a special tool, speed up geologic time to see how subsurface processes created folding and faulting that affects where oil and gas can be found.
- December 8 **An Offshore Holiday:** The term “Christmas Tree” means something very different in the Oil and Gas Industry. Come see our version of a Christmas Tree while learning about polymer chains. Create a model of a simple carbon chain, using red and green construction paper—fit for your very own holiday tree!

# Education Outreach News

## OEC participates in the TAGT Annual Conference

OEC Education Director **Doris Tomas** and OEC Education Programs Coordinator Joy Sloan participated in the annual TAGT conference in early December in Houston. This conference is presented by the Texas Association of Gifted and Talented and brought together over 2,000 educators who share a passion for gifted education. Participants had the chance to create vital connections, engage in and lead important conversations, and become empowered to continue to make a difference in the gifted community. This unique experience featured over 150 training sessions in 15 strands of designated subjects.

Doris and Joy provided a Project E3 workshop to 87 teachers – one of the largest individual workshops ever for the OEC. Doris and Joy made valuable contacts for increasing participation in all of the OEC education outreach programs. *TAGT is an approved provider of Continuing Education (CE) credit for educators, counselors, psychologists and school board members and the OEC workshops are TAGT approved.*

## Career Fair attracts students from area high schools

More than 460 students from 8 area high schools attended the 2017 Career Fair held aboard the *Ocean Star* on December 7. Ten companies, universities and organizations provided information about various careers and opportunities available in the oil and gas industry.

The high schools attending were **Energy Institute, Fulshear, Lamar CISD, Milby, North Shore, O'Connell College Preparatory, Young Women College Preparatory Academy, and Westside.**

Companies and colleges exhibiting and handing out information about industry careers and educational opportunities included **ConocoPhillips, ExxonMobil, Halliburton, National Oilwell Varco, NAPTA, Noble Corporation, Remington College, Schlumberger, TechnipFMC and Texas A&M University Galveston.**

Chase Holub and Trevor Bishop with ExxonMobil speak with students about career opportunities.

## Mobile Oilfield Learning Unit (MOLU) continues to shine with traveling exhibit

**Fourth Quarter Visits – MOLU I** – Based in Houston, TX  
31 school visits that impacted 4,289 students

- **American Association of Petroleum Geologist Foundation** sponsored 1 week in Oklahoma with the MOLU traveling exhibit offering curriculum-based, hands-on activities about the energy industry – Memorial Jr. High, All Saints Catholic School, Carver Middle School, Berry Hill MS, Monroe Middle School.
- **Devon** sponsored 1 week in the Oklahoma City, OK area – Lomega Elementary, Kingfisher Middle School, Okarche High School, Watonga School and Calumet Elementary
- **Chevron, California Resources Corp, Aera, Providence Strategic Consultants, General Production Services, E & B Natural Resources, Renaissance Petroleum, Western States Petroleum Association(WSPA) Kern Citizens For Energy and Seneca Resources Corporation** are sponsored 4 weeks in California – Kettleman City Elementary, Coalinga Middle School, Huron Middle School, San Adro Elementary, San Lucas School, Bradley Union School, Elk Hills School, Midway School, Lincoln Jr. High, Maricopa School, McKittrick Elementary, Maple School, Sheridan Way School, Poinsettia Elementary, Cabrillo Middle School Sunset Elementary, Filmore School, Driffil Elementary, Chavez School, Boys and Girls Club of Oxnard, CA, Lemonwood Tk-8, Dorsey High School, Los Angeles High School, Crenshaw High School, Hamilton High School, Haven Drive Middle School, Casa Loma Elementary, Lost Hills Union Elementary, A. M. Thomas Middle School and the Kern Energy Festival
- **Shell** sponsored the MOLU at the Unidos US Event at the Shell Complex at 150 Dairy Ashford, Houston, TX on December 1st.
- **The Living Legacy Fund** partially sponsored the following visits: St. Mark's Episcopal School, Wilchester Elementary and Mc Williams Middle School.

**Fourth Quarter Visits – MOLU II** – Based in Lafayette, LA  
8 school visits – impacted 1,355 students

- **Shell** sponsored a visit at Southwest Louisiana Technical Institute. We participated in a high school recruiting fair.
- **Fletcher Technical Community College** sponsored 2 weeks in Houma, LA.
- **The Living Legacy Fund** sponsored 7 visits in Lafayette LA – Parks Middle School, St. Martinville Primary, Youngsville Middle School, St. Martinville Junior High, Acadian Middle School, Richard Elementary, Sts. Leo-Seton Catholic School.

## MOLU III

We are very pleased to announce that we have secured 5 sponsors for our third MOLU, MOLU III and construction will begin in the coming weeks. **Cabot Oil & Gas, Schlumberger, Shell, Southwestern Energy and Williams** have all committed to fund the expansion of the education programs of the Offshore Energy Center by pledging to build our third Mobile Oilfield Learning Unit (MOLU III) which will be based in the Pennsylvania area. We are anticipating a sixth sponsor committing in the very near future. It is planned for MOLU III to begin service around the middle of 2018.

2018

## Women with Energy Summit

Presented by the OEC SOCIETY

March 27, 2018 from 11 a.m. – 4 p.m. at 1811 Briar Oaks Lane

A **SOCIETY** EVENT

You are invited to the “Women with Energy Summit” on Tuesday, March 27, 2018 from 11 a.m. to 4 p.m. at 1811 Briar Oaks Lane in Houston. This dynamic event intends to connect and provide women within the offshore and energy industries with a unique professional development experience. Spend the day among other women...with energy, and make an impact on our industry and your professional development. The event is presented by the OEC SOCIETY, a volunteer guild that promotes networking and fundraising events which support the mission of the Offshore Energy Center (OEC) and the *Ocean Star* Offshore Drilling Rig Museum & Education Center. Jocelyn “Joy” Hall, is the OEC SOCIETY Chairman and Director Marine Training with **ConocoPhillips** – Polar Tankers, who has served OEC tirelessly and the OEC SOCIETY. With Joy chairing this event, you do not want to miss it!

By participating in the Women with Energy Summit, you will allow the OEC to expand the public’s awareness about the industries which comprise our livelihood and passion. Learn more about the OEC by visiting our website: [www.oceanstaroec.com](http://www.oceanstaroec.com).

### The following sponsorships are available:

#### **\$10,000 Event Sponsorship**

20 tickets to the Seminar & Luncheon  
Signage at the Seminar, on the OEC website  
and in the OEC newsletter *The Star*  
VIP Tour for 20 employees at the *Ocean Star*

#### **\$5,000 Event Sponsorship**

10 tickets to the Seminar & Luncheon  
Signage at the Seminar, on the OEC website  
and in the OEC newsletter *The Star*  
VIP Tour for 10 employees at the *Ocean Star*

#### **\$2,500 Table Sponsorship**

10 tickets to the Seminar & Luncheon

#### **\$250 Individual Seat**

1 ticket to the Seminar & Luncheon

To date, the following have committed sponsorships: **Schlumberger** and **SBM Offshore**.  
If you would like to be a sponsor or need more information, please call Rhonda Bean at 713-840-1753.

## Spotlight on Beverly Bullen

Beverly Bullen

The OEC welcomed Beverly Bullen as the new Accounting Manager in September 2017.

Beverly has twenty-eight years of finance and accounting experience as Controller in the UK, and has held various finance management roles here in the USA, for companies such as Makinson Cowell (now a KPMG company), ThermoFisher Scientific, Capital One Bank, Corgi International, Transfield Services (now Broadspectrum), and she spent the past two years on contract as a Senior Corporate Internal Auditor at Citgo Petroleum. She is currently pursuing studies towards attaining her Texas CPA license.

Beverly moved to the United States from England in 2009 with two of her three daughters, and fell in love with Houston four years ago, calling Katy their home ever since. We are happy to have her on the Offshore Energy Center team.

## 2017-18 CALENDAR OF EVENTS

- Jan. 13 **Family Days – Island of Life**  
Ocean Star – Galveston
- Jan. 29 **2018 Executive Speaker Series Luncheon**  
Petroleum Club, Houston
- Feb. 10 **Family Days – Shaving Cream Creations**  
Ocean Star – Galveston
- March 10 **Family Days – Derrick of Distinction**  
Ocean Star – Galveston
- March 27 **2018 Women With Energy Summit**  
1811 Briar Oaks Lane, Houston
- April 14 **Family Days – Maskology**  
Ocean Star – Galveston

**THE STAR** is a quarterly newsletter about the activities and educational programs of the Offshore Energy Center. Address your comments, address changes, or questions to 5555 San Felipe Street, Suite 2119, Houston, TX 77056, 713-840-1753 or fax to 281-783-1200, or e-mail to [oecc@oceanstaroec.com](mailto:oecc@oceanstaroec.com).

## 2017 Board Of Directors

*Chairman*  
**T. M. "Mitch" Little**  
Executive Vice President of Operations, Marathon Oil Corporation

*Vice Chairman*  
**-Open-**

*Immediate Past Chairman*  
**Neil Duffin**  
President  
ExxonMobil Production

*Vice Chairman/Development*  
**Ted J. Ryan**  
President  
Ryan Enterprises

*Vice Chairman/Finance*  
**Roger P. Pinkerton**  
President  
R. Pinkerton Consulting, LP

*Vice Chairman/Education Outreach*  
**Galen Cobb**  
Vice President, Industry Relations  
Halliburton

*Vice Chairman/Operations*  
**David Russell**  
Chairman  
Loadmaster Derrick & Equipment, Inc.

*Vice Chairman/Exhibits & Programs*  
**Jeffrey "Jeff" A. Gorski**  
Executive Vice President & Chief  
Operations Officer  
Tidewater, Inc.

*Vice Chairman/PR & Marketing*  
**Bill Yost**  
Director, Executive Sales  
Baker Hughes, a GE company

*Secretary*  
**Robert E. "Bob" Warren**  
President  
Baclenna, Inc.

*Chairmen Emeritus*

**Les Mallory, Jr.**  
Managing Partner  
Quixote Cattle Company

**David H. Welch**  
Chairman  
Welch Capital LLC

**Elizabeth "Libby" Cheney**  
Owner  
Cheney Energy Partners

**Robert "Bob" D. Abendschein**  
Chief Operating Officer  
Venari Resources

**William N. "Bill" Barkhouse**  
Director of Geophysics – S.E.G.  
(*Chairman – Hall of Fame*)

**S. Michael Beattie**  
VP Project Management  
Anadarko Petroleum Corp.

**Terry B. Bonno**  
Senior Vice President, Marketing  
Transocean Ltd.

**Robert Eifler**  
VP & General Manager  
Marketing & Contracts  
Noble Corporation

**David M. Forbes**  
General Manager, Global Wells  
ConocoPhillips

**Terry Gerhart**  
Sr. Vice President  
Global Operations Services  
Noble Energy, Inc.

**Richard G. Ghiselin, PE**  
Qittiturf Consulting, LLC

**Leonard Hale**  
Vice President  
Gulf Copper Energy Services

**Jocelyn "Joy" Hall**  
ConocoPhillips  
(*Chair, OEC SOCIETY*)

**Andy Krieger**  
Head of Function,  
Global Wells Organization  
BP

**Jonathan "Jon" Landes**  
President  
TechnipFMC North America

**Jody Larriviere**  
LFFCO  
(Galveston Community)

**Joe Leimkuhler**  
Vice President – Drilling  
LLOG Exploration

**Carri Lockhart**  
Sr. Vice President US Offshore  
Development and Production USA  
Statoil

**Randall Luthi**  
President  
National Ocean Industries  
Association (NOIA)

**Richard Lynch**  
Sr. Vice President Drilling,  
Completions & Developments  
Hess Corporation

**Scott McClure, PE**  
Alan C. McClure Associates, Inc.  
(*Founding Organizations, S.N.A.M.E.*)

**Merrill A. "Pete" Miller, Jr.**  
Executive Chairman  
Distribution NOW

**Harry E. Newman, Jr.**  
Vice President – Drilling  
ExxonMobil Development Company

**James J. Parr**  
Vice President  
Int'l New Ventures, Gulf of Mexico  
Apache Corporation

**Nick Patterson**  
Sr. Manager, Western Hemisphere  
EnSCO

**Donald "Donnie" Ross**  
Schlumberger Corporation Vice President  
& CGC General Manager  
Schlumberger

**Loren Singletary**  
Vice President,  
Investor & Industry Relations  
National Oilwell Varco

**Cindy Taff**  
Vice President UNC Wells  
Shell

## OEC Staff

**Sandra Mourton**  
Executive Director

**Dani Knigge**  
Administrative Coordinator

**Doris Tomas**  
Education Director

**Daun Ellman**  
Project Coordinator

**Rhonda Bean**  
Development & Marketing Director

**Beverly Bullen**  
Accounting Manager

**Lisa Lisinicchia**  
Museum Director, *Ocean Star*

**Kali Ellis**  
Gift Shop Manager, *Ocean Star*

**Monica Crossno**  
Operations Manager, *Ocean Star*
